## Executive Summary

---

### CONTEXT

This three year District Improvement Plan aims to do the following: honor the strategic planning and stakeholder input that came before this plan’s finalization and pave a clear 3 year pathway that provides direction and coherence to the district’s focus on student achievement. It is important to note that this improvement plan integrates the work that went into the Griswold 2020 and then the Griswold 2025 planning phases; both of these planning phases involved intensive stakeholder feedback.

Improvement plans come in many different forms. To keep things practical, our DAT (District Administrative Team) investigated different plans to identify design approaches that were a good fit and made sense at this particular point and time. We are using elements from “The Massachusetts Planning and Implementation Framework” and the research by professors Rachel E. Curtis and Elizabeth City who co-authored the book *Strategy in Action: How School Systems Can Support Powerful Learning and Teaching* (Cambridge, MA: Harvard University Press, 2015).

We hope that anyone who comes across this document can see how elements connect and also see how this plan projects a three-year approach to continuous improvement.

### DESIGN

In the spring of 2017, the DAT completed a needs assessment. We identified steps taken in the Griswold 2020/2025 planning. We looked at existing, on-going initiatives; student performance data; and current levels of work. We completed a gap analysis to pinpoint areas that warranted attention. As a result of these exercises, the DAT began investigating different improvement/strategic plans to identify a design model and approach that would complement the preparatory planning work that has already been completed.

We cannot emphasize enough that student achievement is the focus of this plan. Because student achievement can be impacted by various influences, it is important to note that it will be necessary to revisit the plan periodically, to revise when and where needed, and to sustain a momentum of continuous improvement.

### DEFINITIONS

Understanding public education lingo can be frustrating. With various terms, acronyms, and “edu-speak,” a District Improvement Plan may be challenging to comprehend. Here are some explanations that may help any reader better understand the plan design:

<b>PLAN Element</b>	<b>Definition</b>
<b>Mission</b>	The district's purpose and current level of work: why the organization exists.
<b>Core Values</b>	Principles that guide that guide decision making and action.
<b>Vision</b>	The district vision is what future success will look like.
<i>Are the foundation of the...</i>	
<b>Theory of Action</b>	The beliefs and assumptions you hold about why certain actions will lead to the vision you seek. Framed as an "if...then" statement.
<i>Which leads to the development of the...</i>	
<b>Strategic Objectives</b>	The coherent group of overarching goals and key levers for improvement that will achieve the vision.
<i>Which will be achieved by the...</i>	
<b>Strategic Initiatives/ Priorities</b>	The focus areas that support and will achieve the strategic objectives.
<b>Action Steps</b>	Steps taken to implement the initiatives.
<i>For which you set...</i>	
<b>Outcomes</b>	The expected results: what they will be, how they will be measured, when they will occur. <b>Interim outcomes</b> set targets for improvement during plan implementation.
<i>Which you evaluate progress toward attaining by setting...</i>	

**Implementation  
Benchmarks**

The planned action steps and their impact. Two different types of implementation benchmarks are required to determine whether you did what you had planned, when you planned to do it—and whether early evidence indicates effectiveness.

**Process benchmarks** specify what will happen, who will do it, and when. For example, 20 teachers will complete an ESL course by June.

**Early evidence of change benchmarks** identify changes you should begin to see if the plan is having its desired impact while being implemented.

*Which you consistently monitor and use as indicators for assessing whether the plan is on track to achieve desired change, or requires adjustment.*

**INTERIM OUTCOMES**

- Developed curriculum documents that are aligned, integrated into instruction and scheduled for a curriculum renewal process.
- Evidence of instruction grounded in student-centered learning as measured by the Danielson Framework (teacher evaluation).
- Evidence of professional learning—formal and informal—that builds teacher capacity for student-centered instructional design and learning.
- Evidence of professional learning on strengthening Tier 1, Scientific Based-Research Intervention (SRBI), instruction.
- Evidence of professional learning on strengthening Tier 1, Scientific Based-Research Intervention, classroom behavioral strategies.
- Evidence of the establishment of data teams at the school and district level that meet frequently that use data to inform instruction.
- Evidence of continued implementation of routine Learning Walks/Instructional Rounds to improve and inform instruction.

## COHERENCE – LINKS BETWEEN PLANS

**1. STRATEGIC OBJECTIVE:**

Support student achievement and educational excellence for every student by demonstrating increases on performance measures

**STRATEGIC INITIATIVES:**

- Create an initial district curriculum renewal plan and timeline for all subject matters with targeted completion dates and renewal cycle/process informed by teacher input, student work, and current research.
- Establish data teams to review student performance data regularly; to identify instructional strengths, needs and gaps; to monitor the delivered curriculum and compare it to the written curriculum; and to improve student performance growth targets.
- Use student achievement data to identify students who could benefit from advanced learning opportunities or who are in need of Tier 2 and Tier 3 interventions.

**2. STRATEGIC OBJECTIVE:**

Support student achievement and educational excellence with instruction that engages students to be critical thinkers, collaborative team players, and creative individuals.

**STRATEGIC INITIATIVES:**

- Continue to support and implement—where identified—student-centered instructional practices to enhance learning and to build on students’ responses and interests that lead students to own their learning.
- Continue to support and implement classroom instruction that guides students to assume considerable responsibility and to encourage unsolicited contributions.
- Continue to support and implement the educator evaluation process as a tool to monitor instruction; to offer administrators and teachers authentic examples of professional reflection; and to pinpoint professional learning needs.

### 3. STRATEGIC OBJECTIVE:

Support student achievement and educational excellence to foster socio-emotional, cultural and personalized needs of our students.

#### STRATEGIC INITIATIVES:

- Continue to ensure that students receive needs-determined supports beyond the classroom to meet learning expectations.
- Continue to use technology and digital learning experiences to enhance and to provide different access to all curriculum areas and instructional objectives.
- Sustain and enhance commitment to parent, community and stakeholder engagement and communication

**\*EXPLANATION OF DATA FOR PERFORMANCE MEASURES**

**GES**

- Smarter Balanced assessment (SBAC) is a customized test that utilizes a computer adaptive format: questions get harder when students answer correctly and easier when they answer incorrectly, allowing students to better demonstrate what they know. For the Smarter Balanced assessments, outcomes will be reported in terms of four levels of achievement: Level 1, Level 2, Level 3, and Level 4. Students performing at Levels 3 and 4 are considered on track to demonstrating the knowledge and skills necessary for college and career readiness.

**GMS**

- Blue Ribbon is a web-based benchmark assessment aligned to the Common Core for Language Arts and Math that is administered three times a year. Student data is collected and analyzed to drive instruction and to set personalized goals for each student. As part of their evaluation, teachers will be measured based on the percentage of students that reach their personalized goal.

## GHS

- Students who take the PSAT/NMSQT, PSAT 10, and PSAT 8/9 see *grade-level benchmarks* on their score reports. Grade-level benchmarks indicate whether students are on track for college and career readiness. They are based on expected student growth toward SAT benchmarks at each grade.
  - Students are considered college and career ready when their SAT section scores meet both the Math and the Evidence-Based Reading and Writing Benchmarks.

## Benchmark Indicators

Score reports use colors to show how students section scores relate to the SAT or grade level benchmark.

- **GREEN:** The section score meets or exceeds the benchmark.
- **YELLOW:** The section score is within one year's academic growth of the benchmark.
- **RED:** The section score is below the benchmark by more than one year's academic growth.
