BEGIN HERE!

This month's projection remains fairly consistent in comparison to the December projection - this is still not cause for panic. There are strategies that we can and will use to end the year within the allocated budget.
This is the current worst case projection. It assumes that all monies are spent down, but that will not necessarily be the case.
As we have discussed throughout this year, much of the COVID related grant funding covers a 3 year period. We are able to move expenses for natural gas, ventilation repairs, custodial salaries, and legal fees from the general fund into grants. We will do this if the financial projection does not begin to improve. There are not large "buckets" for these areas though, and we need to stretch these allocations as far as possible to ensure fiscal stability in year 3 of the grants, particularly as we try to maintain funding for the programs put in place through COVID funding.
