Subject: Community Multi-Purpose Field Access

Date: June 6th, 2023

++++
As the Community Multi-Purpose Field project advances successfully to its next stage, it's important to reiterate the following while this project is still on-going:

- **The field/track area is considered a construction site with access only for authorized personnel; no one other than authorized personnel should be on the site.**
- **Any unauthorized individuals accessing the site could disrupt the project and associated tasks.**
- **The project will not be complete until some time in August, at which time we will inform the community about access.**

At this point, it is unsafe for individuals to access this restricted area until further notice. Please do not enter any part of the field (field, track, bleachers, etc.), as those areas are part of the construction site.

We look forward to the completion of this project at some point in August, when the Griswold Community can enjoy their new Community Multi-Purpose Field.
