

## **Asbestos Notification**

Please be advised of our annual notification with respect to our asbestos management plan.

### Griswold Elementary School – 303 Slater Ave

No known asbestos bearing materials were used in the construction of the facility.

Griswold Middle School – 211 Slater Avenue: Asbestos containing floor tile were identified in the kitchen area, several janitors closets and a storage room. This building was added to the management plan in 2002. In the summer of 2007, asbestos containing floor tile was removed in first floor handicap bathroom. There was no asbestos activity during the 2007/08 school year. There have been abatements in the middle school during the summer of 2009 by the building project but none by the maintenance department. There have been abatements of asbestos floor tile by the building project in the summer '10.

Griswold High School – 267 Slater Avenue: No known asbestos bearing materials were used in the construction of the facility.

Griswold Alternative School – 1553 Glasgo Road: There is asbestos floor tile in the hallway and under the carpet in the front section on the middle school side of the building. In the summer of 2007, we removed asbestos floor tile from first floor classroom and offices. There was asbestos abatement to the boiler during summer, 2009.

A copy of our asbestos management plan is available for public access in the main offices of the above listed buildings. There has been no asbestos abatement activity in 2015. There are no planned asbestos activities for this school year. 2015/2016.
